

# Control System Engineer (PLC / SCADA) Newcastle

## Competitive salary & benefits

This is an excellent opportunity to be part of a small, expanding and highly successful Systems Integrator in Newcastle. You could be part of a project team with responsibility for designing, developing and testing well defined PLC and/or SCADA work packages for a range of customers.

Skills required:

- Control System Specification and Design
- Programming and Test of PLC and SCADA Systems
- Preparation of Test and User Documentation

Experience of one or more of the following technologies:

- Rockwell PLCs
- FactoryTalk View
- Intouch SCADA
- Siemens S7 PLC's
- Siemens WinCC SCADA/HMI
- iFIX SCADA
- Microsoft Visual Studio

Are you an excellent communicator with an in depth understanding of PLC & SCADA technologies? Do you have an appreciation of all aspects of the software project lifecycle? Are you accustomed to the production and use of high standard technical documentation?
